Barcelona Towel Warmer - Freestanding - Plug-in (120 VAC)

This freestanding towel warmer goes above and beyond the normal benefits of traditional wall-mounted models by also providing a huge degree of flexibility. Because the Barcelona is freestanding, it can be easily moved to any room in your home that has a 120 VAC outlet. Additionally, with the Barcelona's arched legs, 8 round bars, and brushed stainless steel finish, this towel warmer is also an attractive design element in any room. The sleek Barcelona takes up very little floor space while still being able to accommodate two bath towels or a bathrobe to help keep them warm or dry between uses. The Barcelona is safe and is cETLus listed. It comes with an LED power switch and TempSmart™ overheating protection to prevent the unit's surface temperature from exceeding 167°F (75°C).

Dimensions

24" W x 37" H x 15.5" D

610 mm W x 950 mm H x 394 mm D
