Step 1: Draw a rough layout of the room to be warmed on the layout form. Please include outlines and locations of any permanent fixtures such as bathtubs, toilets, vanities, cabinets, floor vents, and appliances.

Step 2: Outline the area you want to warm.

Step 3: Add accurate room measurements, and dimensions of permanent fixtures.

Step 4: Mark the location where you would like the thermostat or control for your system. Please select a location within easy reach of an existing power supply.

We recommend one thermostat per room
