The Elements, Plug-in, 4 Bars

Looking for the comfort of heated towels, but limited on space? The WarmlyYours Elements Towel Warmer is what you are looking for. At 16.3"W x 28.5"H x 3.5"D, it has a smaller profile and takes up less wall space. The Elements towel warmer features four rounded bars that pivot on wall mounts, allowing for convenient access when you need it and compact storage when you don't. At 120 volts, it plugs into a standard household outlet and is operated with a built-in on/off switch. The Elements Towel Warmer generates 60 watts to gently heat a large bath towel. It makes a great addition to any sized bathroom or budget.

The Huron, Hardwired, 8 Bars

The Huron towel warmer from WarmlyYours features an innovative design and a high level of performance. The integrated, non-heating storage shelf, which also doubles as the top set of mounting brackets for the towel warmer, means that there is no wasted space in its design. This wall-mounted appliance comes with a streamlined hardwired electrical connection

(110 – 120 VAC) and a discrete integrated on/off switch. The 8 heated bars of the Huron will deliver a heat output of 307 BTUs per hour which will not only warm your towels and bathrobes but also heat them between uses. The 304-stainless steel construction and brushed finish make the Huron as durable as it is elegant. This model comes with built-in TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 149°F (65°C)

The Huron 8, Oil-rubbed Bronze, Hardwired, 8 Bars

The Huron towel warmer from WarmlyYours represents the perfect blend of innovation and high performance. With its integrated, non-heating storage shelf for extra towels, which also doubles as the top set of mounting brackets, the Huron has no wasted space. The discrete power switch and sleek hardwired connection (110 – 120 VAC) create an elegant presentation. The heat output of 307 BTUs per hour from the Huron's 8 heated bars will help warm and dry your towels and bathrobes. The rich, deep tones of the oil-rubbed bronze finish will add a visual flair to any room. This model comes with built-in TempSmart™ protection to prevent the unit from overheating.

The Tahoe 6, Hardwired, 6 Bars

The compact and economical Tahoe 6 towel warmer from WarmlyYours provides all of the functionality of larger models while taking up significantly less wall space. This wall-mounted model comes with a discrete power switch and a hardwired electrical connection (110 – 120 VAC), which means the Tahoe 6 will present a sleek profile when installed. The 6 evenly spaced bars of this model deliver a heat output of 273 BTUs per hour, which will ensure your towels and bathrobes are warm and dry. The 304-stainless steel construction and highly polished finish make the Tahoe 6 as durable as it is elegant and functional. This model comes with built-in TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 149°F (65°C).

The Grande 10, Hardwired, 10 Bars

If the Grande 10 towel warmer from WarmlyYours proves anything, it's that sometimes huge performance comes in small packages. It's heat output of 460 BTUs per hour stands toe-to-toe with many larger models, while its compact profile means the Grande 10 can be installed in a variety of locations. The flat bars of the Grande 10 provide ample surface area to heat and dry your towels and bathrobes. The spacing of the bars also incorporates a specialized top-bar pairing for hand towels. This wall-mounted model features a hardwired electrical connection (110 – 120 VAC), discrete power switch, 304-stainless steel construction, and brushed finish. This model comes with built-in TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 149°F (65°C).

The Ontario XL, Hardwired, 11 Bars

There's no doubt that a towel warmer delivers comfort and luxury, but the Ontario XL from WarmlyYours is a perfect example of how functional an electric towel warmer can be. The economical Ontario XL's distinctive size offers two immediate benefits: it can easily accommodate multiple towels and its heat output of 443 BTUs per hour is hard to beat for the price. The heat is delivered through 11 round bars that are spaced in groups of 4, 3, and 4. This orientation makes the Ontario XL well suited for heating and drying towels of different sizes. The polished finish and hardwired connection of this model is both streamlined and aesthetically pleasing. This model comes with built-in TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 149°F (65°C).

Hardwired 4-Setting Countdown Timer

The Hardwired 4-Setting Countdown Timer from WarmlyYours is an effective control option for towel warmers or radiant panels. With 4 different countdown settings (2hr, 1hr, 30min, and 15min) and an on/off button, this timer control is the perfect option for those of us with unpredictable schedules.

- MSRP: USD\$50/CAD\$65
- Can be used to control hardwired towel warmers or radiant panels
- 4 preset heating duration options: 2hr, 1hr, 30min, and 15min
- Comes with a white wall-plate and 3 interchangeable faceplates: white (installed), ivory, and light almond
- Simple "press-and-hold" override functionality
- Lead Time 5-10 business days

Hardwired Programmable Timer

The Hardwired Programmable Timer from WarmlyYours is a classic control option for towel warmers or radiant panels. With the ability to program up to 50 separate on/off events throughout the week, this timer control is a great way to both customize your comfort level and to maximize energy savings.

- MSRP: USD\$69/CAD\$89
- Can be used to control hardwired towel warmers or radiant panels
- Easy-to-program with up to 50 on/off events possible
- Comes with a white wall-plate and 3 interchangeable faceplates: white (installed), ivory, and light almond
- The LCD backlit display is easy to read in low-light environments
- Lead Time 5-10 business days

Hardwired WiFi Switch

The Hardwired WiFi Switch from WarmlyYours is an elegant and convenient control option for towel warmers or radiant panels. This WiFi enabled control opens a variety of possibilities for how you operate your device. You can use it manually in-person like a traditional light switch or you can operate it remotely with your smart device.

- MSRP: USD\$79/CAD\$99
- Can be used to control hardwired towel warmers or radiant panels
- Works with Amazon's Alexa, Google Assistant, or the Nest thermostat (no hub required)
- Can be controlled/programmed remotely via a smart device
- Comes with 2 interchangeable faceplates: white (installed) and light almond
- Lead Time 5-10 business days

WarmlyYours Advantages

WarmlyYours is dedicated to leading the industry and offering the best experience for our customers by offering a variety of unique advantages.

24/7

24/7 Installation Support

Call us any time — day or night, weekday or weekend — with any questions or installation challenges. Our technical support team is here to help. That's our commitment to our customers and their businesses.

Same-Day Shipping

Order before 4:00 p.m. Central time (in the United States and Canada), and we'll ship that same day so that you can keep your projects moving.

No Restocking Fees

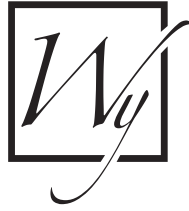

At WarmlyYours, we do not have restocking fees for any of our products.*

Open Return Policy

Our return policy is simple. If we still sell the product and it's in resalable condition, you may return it at any time — even years later. We know that life does not always run according to an ideal schedule, and at WarmlyYours, you come first.*

* For more information, please refer to the official WarmlyYours return policy:
