

Metropolitan Towel Warmer

Dual Connection 120 VAC

The Metropolitan Towel Warmer is the ultimate statement of modern luxury and high-capacity performance. Featuring a striking, geometric profile with ten square bars, this premium model is designed for larger master baths and busy households. With its flexible dual-connection design, the Metropolitan can be plugged into a standard outlet or professionally hardwired, seamlessly blending architectural elegance with daily comfort.

PREMIUM 10-BAR CAPACITY

Polished Stainless Steel

From its generous capacity to its advanced TempSmart overheat protection and integrated LED control, every detail of the Metropolitan is crafted to deliver a spa-like retreat in your own home. Experience the simple, daily pleasure of a perfectly warm towel.

PRODUCT FEATURES

Features

The Metropolitan Towel Warmer blends cutting-edge technology with a striking, geometric aesthetic to redefine your bathroom's design. Every element—from its sharp, square-bar profile to its advanced heating efficiency—is engineered to deliver superior performance and safety, bringing a bold touch of modern architectural luxury to your daily routine.

High-Capacity 10-Bar Design

Maximize your comfort. Featuring 10 sleek, square bars arranged in two groups of five, the Metropolitan provides ample space to easily warm two large bath towels or a plush bathrobe simultaneously.

Dual-Connection Versatility

Enjoy ultimate flexibility. Plug the unit into a standard outlet for a quick, DIY setup, or have it professionally hardwired for a clean, cord-free look — both options are supported out of the box.

Seamless Wall-Mount Design

By routing the hardwire connection directly through the mounting bracket and inside the leg, the Metropolitan eliminates the need for an unsightly wall plate or exposed junction box. This ensures a perfectly flush, minimalist aesthetic.

State-of-the-Art LED Control

Experience modern convenience at your fingertips. The Metropolitan features a sleek, integrated power switch with a discrete blue LED indicator light. This state-of-the-art design is flush-mounted to maintain the towel warmer's clean, minimalist lines while providing a clear, elegant visual cue when the unit is operating.

TempSmart Safe-Touch Heating

Engineered for family-friendly safety. Built-in TempSmart technology automatically regulates the surface temperature, preventing the unit from overheating while maintaining a safe, consistent warmth.

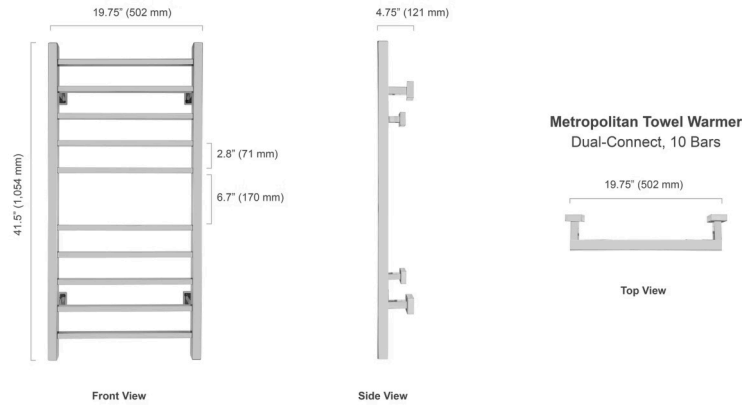

Eco-Friendly Efficiency

Indulge in daily luxury without the high energy bill. Operating at 150 Watts, the Metropolitan uses about the same electricity as a standard light bulb, costing only pennies a day to run.

PRODUCT SPECIFICATIONS

Product Specifications

Explore the engineering behind the Metropolitan's bold, geometric design. From its high-performance heating capacity to its precise square-bar dimensions, these specifications ensure a perfect fit and seamless integration into your modern space.

SKU	TW-MT-10PS-HP

Weight	12.3 lbs (5.6 kg) Base
Dimensions	19.75" W × 41.5" H × 4.75" D (50.2 cm × 105.4 cm × 12.1 cm)
Plug Type	NEMA 5-15 (Type B)
Cord Length	77" (1.95 m)
Listing	cETLus
Warranty	2 years

PREMIUM FINISH

DESIGN INTEGRATION

Finish Spotlight & Design Integration

The Brilliance of Polished Stainless Steel

A timeless finish engineered for modern spaces. Discover why hand-polished, 304-grade stainless steel is the premier choice for luxury bath fixtures, offering unmatched durability and a flawless mirror-like shine.

Hand-Polished Mirror Shine

Unlike chrome plating which can chip, peel, or wear away over time, our stainless steel is meticulously hand-buffed to a brilliant mirror finish. This ensures your towel warmer maintains its deep, lustrous shine for a lifetime.

Premium 304-Grade Durability

Crafted from high-grade 304 stainless steel, the Metropolitan is naturally resistant to rust, corrosion, and moisture. It is specifically engineered to thrive in the high-humidity environment of a luxury bathroom.

Seamless Fixture Matching

The polished stainless steel finish beautifully complements existing chrome, polished nickel, and stainless steel bathroom fixtures, making it easy to create a cohesive, high-end design aesthetic.

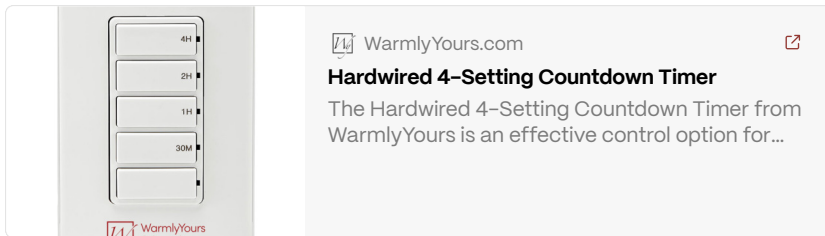

- 📘 Looking for alternative finishes or a different size? If your design calls for Matte Black or Polished Gold, or if you need a slightly more compact footprint, explore our [Sierra Series](#)—offering the same modern square-bar aesthetic in a variety of finishes.

CONTROL OPTIONS

SMART HEATING

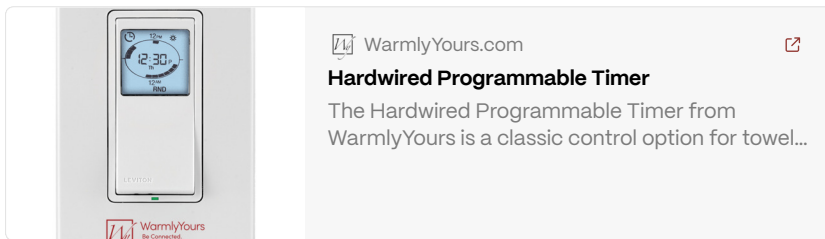

Towel Warmer Control Options

Enhance your daily ritual with effortless control over your towel warmer. Whether you prefer the simplicity of a manual switch or the sophistication of smart home integration, our range of control options ensures your towels are perfectly warm, exactly when you need them.

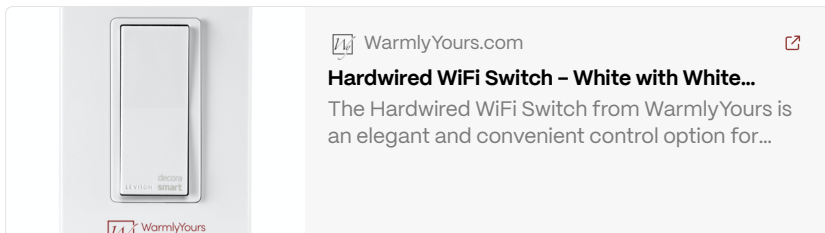

Simple timer, no programming. Select one of four preset countdown durations (30 min, 1 hr, 2 hr, 4 hr) — the warmer shuts off automatically.

GK16-30090-0006 | \$89

Scheduled daily heating. Program up to 50 on/off events on a 7-day schedule with a backlit LCD display.

GK16-30090-0002 | \$119

Smart home & voice control. Control remotely via the My Leviton app. Compatible with Amazon Alexa and Google Assistant — no hub required.

GK16-30090-0003 | \$139

 Hardwired controls are compatible with hardwired installations only. For plug-in installations, contact us for plug-in timer options.

4 Simple Steps to Install

Installing the Metropolitan is as seamless as its modern design. Whether you choose the quick convenience of a plug-in setup or the clean, cord-free look of a professional hardwired installation, these four straightforward steps will have you enjoying architectural warmth in no time.

Choose Your Connection Type

Decide whether you'll use the Metropolitan as a plug-in unit or have it hardwired by a licensed electrician.

For plug-in use, confirm a standard 120 VAC outlet is accessible near the intended mounting location.

Make the Electrical Connection

For plug-in installation, route the 77" cord to the nearest 120 VAC outlet.

For a hardwired installation, have a licensed electrician complete the connection — no cover plate is required thanks to the Metropolitan's unique design.

2

3

4

Mount the Unit to the Wall

Using appropriate wall anchors for your wall type, mount the Metropolitan securely at a comfortable height. Ensure the unit is level and all mounting points are firmly secured before connecting power.

Power On & Verify Operation

Switch the unit on using the integrated LED power switch. The LED indicator will confirm the unit is active. TempSmart protection is always operational — no additional setup is required.

ORDER INFORMATION

How to Order — It's Easy!

Confirm your wall space and choose your installation type — we'll help you bring the premium Metropolitan into your home! The Metropolitan Towel Warmer is available in polished stainless steel with full dual-connection capability.

1

Step 1: Confirm Your Space

Measure your wall space to ensure the Metropolitan's tall, elegant profile (**19.75" W × 41.5" H**) fits perfectly. This model is ideal for narrow wall spaces that still require high-capacity towel warming.

2

Step 2: Plan Your Installation

Decide whether you'll use the Metropolitan as a plug-in or have it hardwired by a licensed electrician. Confirm your outlet location or arrange for an electrician visit before your unit arrives for the smoothest installation experience.

3

Step 3: Order & Install

Place your order through your WarmlyYours Dedicated Account Manager. Plug-in installation is straightforward — mount, connect, and switch on. For a hardwired finish, your electrician will complete the connection with no cover plate required.

 **INSTALLER NOTE: Power connects directly inside the mounting leg. Do not rough-in an electrical junction box at the mounting location.**

 **Questions about whether the Metropolitan is the right fit for your project?** Contact us — we're happy to help you choose the perfect towel warmer for your bathroom.
