

Ontario XL Towel Warmer Hardwired 120 VAC

The Ontario XL Towel Warmer is a striking masterpiece of modern bathroom design. Standing nearly four feet tall with eleven robust round bars arranged in an innovative grouped configuration, this statement model is engineered for spacious master suites and luxury home spas. Designed exclusively for professional hardwired installation, the Ontario XL mounts flush to your wall with no visible cords, delivering a clean, architectural presence that commands attention while wrapping you in unparalleled warmth.

PREMIUM 11-BAR CAPACITY

Polished Stainless
Steel

Crafted from hand-polished 304-grade stainless steel, the Ontario XL combines high-performance heating with advanced TempSmart™ safety technology. Experience the ultimate daily indulgence of a perfectly warm towel, delivered by a true masterpiece of radiant engineering.

PRODUCT FEATURES

Features

The Ontario XL Towel Warmer combines striking modern scale with sophisticated engineering to redefine the luxury bath experience. Every detail—from its generous 11-bar heating grid to its secure, hardwired wall integration—is designed to deliver unmatched performance, safety, and timeless elegance to your home.

Generous 11-Bar Design

Experience customized capacity. With 11 robust round bars arranged in three distinct heating zones (4, 3, and 4), the Ontario XL easily accommodates multiple oversized bath sheets, hand towels, and heavy bathrobes simultaneously.

Secure Hardwire Connection

Designed for a safe and permanent installation. The Ontario XL hardwired connection terminates securely through the bottom right mounting leg directly into a standard electrical junction box, finished with a matching, low-profile wall cover plate.

Premium 304 Stainless Steel

*Built to last a lifetime. Crafted from high-grade 304 stainless steel and **independently IP55-rated against dust and water**, the Ontario XL resists rust, corrosion, and moisture — making it ideal for the steamy reality of a high-humidity master bathroom.*

Integrated LED Power Switch

Sleek and convenient control. The Ontario XL features a discreet, flush-mounted LED on/off power switch built directly into the base of the frame. This design provides convenient, independent control at the unit while maintaining a clean, uninterrupted aesthetic.

TempSmart Safe-Touch Heating

Engineered for family-friendly safety. Built-in TempSmart™ technology automatically regulates the surface temperature, preventing the unit from overheating while maintaining a safe, consistent warmth.

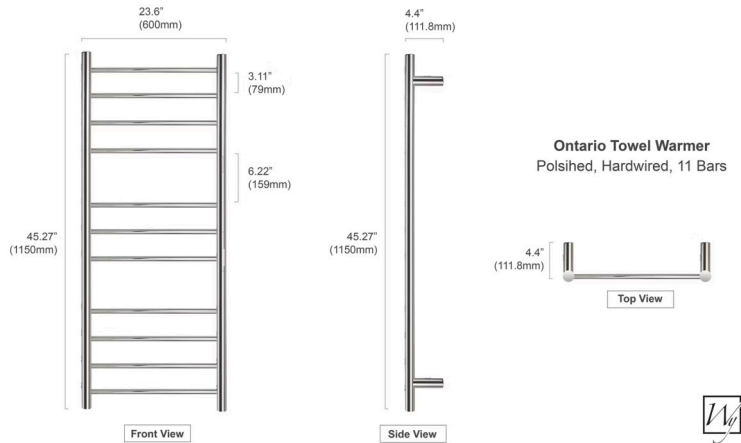

Eco-Friendly Efficiency

Indulge in daily luxury without the high energy bill. Operating on a highly efficient 185 watts of power, the Ontario XL costs only pennies a day to run, delivering premium dry-element radiant heating with zero maintenance.

PREMIUM CAPACITY

ARCHITECTURAL IMPACT

The Ultimate Luxury of an 11-Bar Grid

A True Statement Piece Engineered for Grand Spaces

Discover how the Ontario XL's unique grouped-bar heating grid and energy-efficient performance redefine comfort in the modern master suite.

Three Dedicated Heating Zones

With 11 round bars arranged in three distinct groups (4, 3, and 4), the Ontario XL is designed to distribute heat perfectly. This layout allows you to hang multiple oversized bath sheets, hand towels, and a bathrobe all at once without crowding.

High-Output 185-Watt Performance

Delivering a powerful 185 Watts of radiant heat, the Ontario XL heats up quickly and provides deep, penetrating warmth. It is specifically engineered to dry and warm even the thickest, most plush luxury towels with ease.

Hand-Polished Mirror Shine

Meticulously hand-buffed to a brilliant mirror finish, the Ontario XL's 304-grade stainless steel surface reflects the light beautifully, adding a bright, clean, and expansive feel to your bathroom design.

Looking for alternative finishes or bar designs in this large-capacity class?

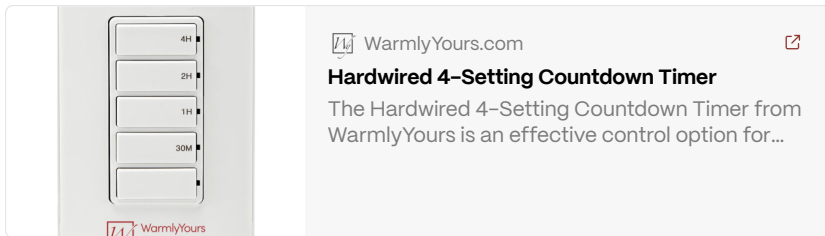

- For the same **11-bar round layout in Matte Black**, explore the [Malta](#) series.
- For a bold, modern **flat-bar design** in 10 or 12 bars — available in **Brushed, Polished, or Matte Black** — see the [Grande](#) series.

CONTROL OPTIONS

SMART HEATING

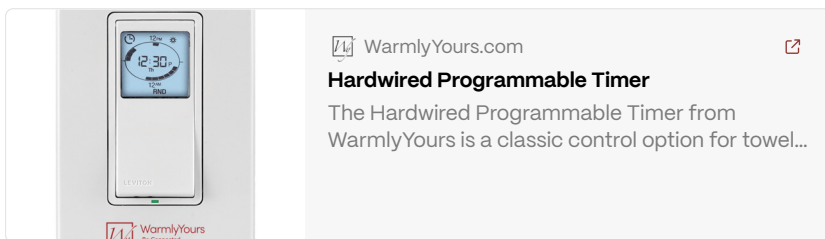

Towel Warmer Control Options

Enhance your daily ritual with effortless control over your towel warmer. Whether you prefer the simplicity of a manual switch or the sophistication of smart home integration, our range of control options ensures your towels are perfectly warm, exactly when you need them.

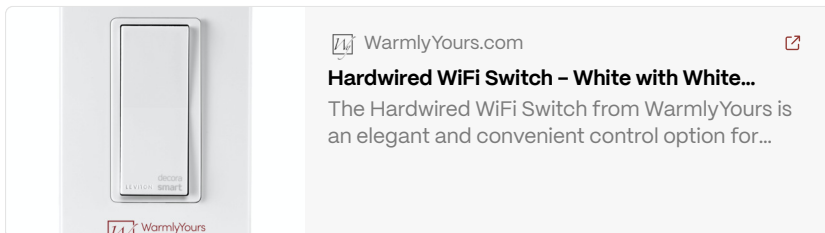

Simple timer, no programming. Select one of four preset countdown durations (30 min, 1 hr, 2 hr, 4 hr) — the warmer shuts off automatically.

GK16-30090-0006 | \$89

Scheduled daily heating. Program up to 50 on/off events on a 7-day schedule with a backlit LCD display.

GK16-30090-0002 | \$119

Smart home & voice control. Control remotely via the My Leviton app. Compatible with Amazon Alexa and Google Assistant — no hub required.

GK16-30090-0003 | \$139

 Hardwired controls are compatible with hardwired installations only. For plug-in installations, contact us for plug-in timer options.

4 Simple Steps to Install

Installing the Ontario XL is a clean, straightforward process designed for professional integration. Because it is a dedicated hardwired model, these four simple steps will guide your licensed electrician to complete a flawless, cord-free installation.

Plan Your Location

Determine the ideal wall location for your Ontario XL. Ensure there is a 120 VAC power source nearby. Your electrician will rough-in the electrical wiring to the exact bottom right mounting leg location.

Complete the Electrical Connection

Have a licensed electrician route the power cable to a standard single-gang junction box at the bottom right mounting leg location. Complete the wiring connections and secure the matching wall cover plate.

Install the Mounting Brackets

Using the included template, mark and drill the mounting points. Secure the heavy-duty wall brackets to the wall studs or use appropriate high-strength anchors.

Secure & Power On

Slide the towel warmer onto the brackets, secure it to the wall plate, and tighten the hidden set screws to lock it in place. Turn on the power at the breaker and enjoy the majestic warmth of your Ontario XL.

ORDER INFORMATION

How to Order — It's Easy!

Confirm your wall space and prepare your electrical layout — we'll help you bring the majestic Ontario XL into your home! The Ontario XL is available in polished stainless steel with a dedicated hardwired connection for a flawless, architectural look.

Step 1: Confirm Your Space

Measure your wall space to ensure the Ontario XL's grand, elegant profile (**23.6" W × 45.27" H**) fits perfectly. This model is ideal for spacious master bathrooms with ample vertical wall space.

Step 2: Coordinate Your Electrician

Since the Ontario XL is a dedicated hardwired model, schedule a licensed electrician to rough-in the 120 VAC power line to your desired mounting location before your unit arrives.

Step 3: Order & Enjoy

Place your order for the Ontario XL through your WarmlyYours Dedicated Account Manager. Once installed with its matching wall plate, your Ontario XL will deliver rapid, energy-efficient warmth to your towels every single day.

-  **INSTALLER NOTE:** This unit requires a standard single-gang electrical junction box at the bottom-right mounting leg location. Please refer to the installation manual for exact rough-in dimensions before closing the drywall.

-  **Questions about whether the Ontario XL is the right fit for your project?** Contact us — we're happy to help you choose the perfect towel warmer for your bathroom.
