Riviera Towel Warmer Series - Dual Connection 120 VAC

With its nine curved towel bars, the Riviera is designed to easily dry and warm 2 large towels or even a bathrobe. The Riviera is available with either a brushed or polished finish to ensure you find the right match for your project.

This towel warmer is also dual connect. It can be used "as is" to plug into a standard 120 VAC outlet or modified by a licensed electrician to be hardwired.

Its unique design means there is no unattractive and cumbersome cover plate required.

The Riviera comes with an LED power switch and TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 167°F (75°C).

Also Available in:

Polished
Stainless Steel

Brushed
Stainless Steel
