

Rome Towel Warmer

Hardwired 120 VAC

The Rome Towel Warmer is a bold statement of modern bathroom design. With ten generously spaced round bars arranged in two balanced heating groups, this contemporary model delivers powerful, high-output radiant warmth across its full height. Designed exclusively for professional hardwired installation, the Rome mounts flush to your wall with no visible cords, delivering a clean, architectural presence that commands attention while wrapping you in fast, penetrating warmth.

PREMIUM 10-BAR CAPACITY

Brushed Stainless Steel

Crafted from high-grade 304 stainless steel, the Rome combines high-performance heating with advanced TempSmart safety technology. Experience the ultimate daily indulgence of a perfectly warm towel, delivered by a true masterpiece of radiant engineering.

PRODUCT FEATURES

Features

The Rome Towel Warmer combines bold modern scale with high-output engineering to redefine the luxury bath experience. Every detail—from its powerful 240-watt heating grid to its secure, hardwired wall integration—is designed to deliver fast, dependable performance, safety, and timeless style to your home.

Generous 10-Bar Design

Experience modern capacity. With 10 robust round bars arranged in two balanced groups of five, the Rome distributes heat evenly across its full height, comfortably warming up to two large towels or a heavy bathrobe at once.

Secure Hardwire Connection

Designed for a safe and permanent installation. The Rome's hardwired connection terminates cleanly into a standard electrical junction box, eliminating cords and clutter for a beautifully integrated, built-in look.

Premium 304 Stainless Steel

Built to last a lifetime. Crafted from high-grade 304 stainless steel and independently IP55-rated against dust and water, the Rome resists rust, corrosion, and moisture — making it ideal for the steamy reality of a high-humidity master bathroom.

Integrated LED Power Switch

Sleek and convenient control. The Rome features a discreet, flush-mounted LED on/off power switch built directly into the base of the frame. This design provides convenient, independent control at the unit while maintaining a clean, uninterrupted aesthetic.

TempSmart Safe-Touch Heating

Engineered for family-friendly safety. Built-in TempSmart technology automatically regulates the surface temperature, preventing the unit from overheating while maintaining a safe, consistent warmth.

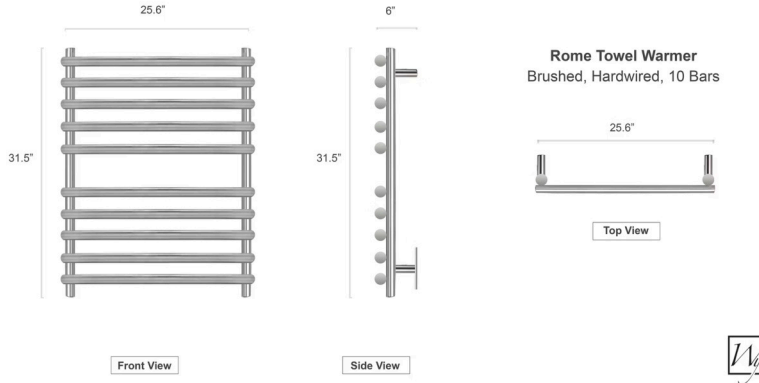

High-Output Radiant Warmth

Indulge in daily luxury with fast results. Delivering a robust 240 watts of power, the Rome produces deep, penetrating warmth, drying even the thickest towels with premium dry-element radiant heating and zero maintenance.

PRODUCT SPECIFICATIONS

Product Specifications

PREMIUM CAPACITY

ARCHITECTURAL IMPACT

The Bold Statement of a 10-Bar Grid

A True Statement Piece Engineered for Modern Spaces

Discover how the Rome's balanced grouped-bar heating grid and high-output performance redefine comfort in the modern master suite.

Two Balanced Heating Groups

With 10 round bars arranged in two balanced groups of five, the Rome is designed to distribute heat evenly across its full height. This layout comfortably accommodates up to two large towels or a plush bathrobe without crowding.

High-Output 240-Watt Performance

Delivering a powerful 240 Watts of radiant heat, the Rome heats up quickly and provides deep, penetrating warmth. It is specifically engineered to dry and warm even the thickest, most plush luxury towels with ease.

Brushed Satin Finish

Finished in a soft, brushed satin sheen, the Rome's 304-grade stainless steel surface hides fingerprints and water spots beautifully, pairing effortlessly with both warm and cool bathroom palettes for a refined, architectural look.

 Looking for alternative finishes or bar designs in this large-capacity class? For an **11-bar round layout** in Polished or Matte Black, explore the [Ontario XL](#) or [Malta](#) series. For a bold, modern **flat-bar design** in 10 or 12 bars — available in Brushed, Polished, or Matte Black — see the [Grande](#) series. For an **11-bar round** alternative in Polished Stainless, consider the [Ontario XL](#) series.

CONTROL OPTIONS

SMART HEATING

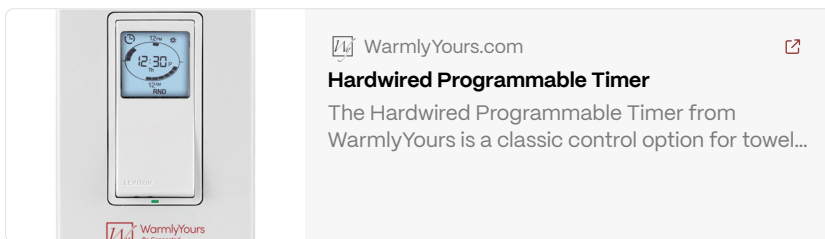

Towel Warmer Control Options

Enhance your daily ritual with effortless control over your towel warmer. Whether you prefer the simplicity of a manual switch or the sophistication of smart home integration, our range of control options ensures your towels are perfectly warm, exactly when you need them.

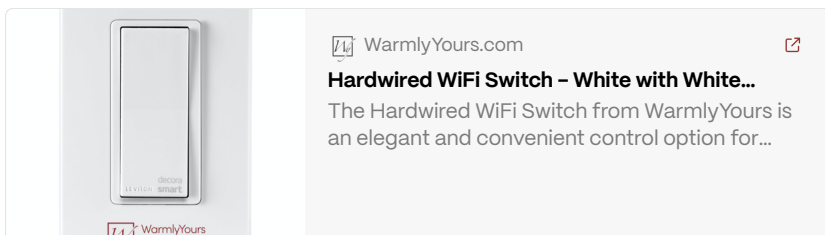

Simple timer, no programming. Select one of four preset countdown durations (30 min, 1 hr, 2 hr, 4 hr) — the warmer shuts off automatically.

GK16-30090-0006 | \$89

Scheduled daily heating. Program up to 50 on/off events on a 7-day schedule with a backlit LCD display.

GK16-30090-0002 | \$119

Smart home & voice control. Control remotely via the My Leviton app. Compatible with Amazon Alexa and Google Assistant — no hub required.

GK16-30090-0003 | \$139

 Hardwired controls are compatible with hardwired installations only. For plug-in installations, contact us for plug-in timer options.

4 Simple Steps to Install

Installing the Rome is a clean, straightforward process designed for professional integration. Because it is a dedicated hardwired model, these four simple steps will guide your licensed electrician to complete a flawless, cord-free installation.

Plan Your Location

Determine the ideal wall location for your Rome. Ensure there is a 120 VAC power source nearby. Your electrician will rough-in the electrical wiring to the exact mounting leg location.

Complete the Electrical Connection

Have a licensed electrician route the power cable to a standard single-gang junction box at the mounting leg location. Complete the wiring connections and secure the matching wall cover plate.

Install the Mounting Brackets

Using the included template, mark and drill the mounting points. Secure the heavy-duty wall brackets to the wall studs or use appropriate high-strength anchors.

Secure & Power On

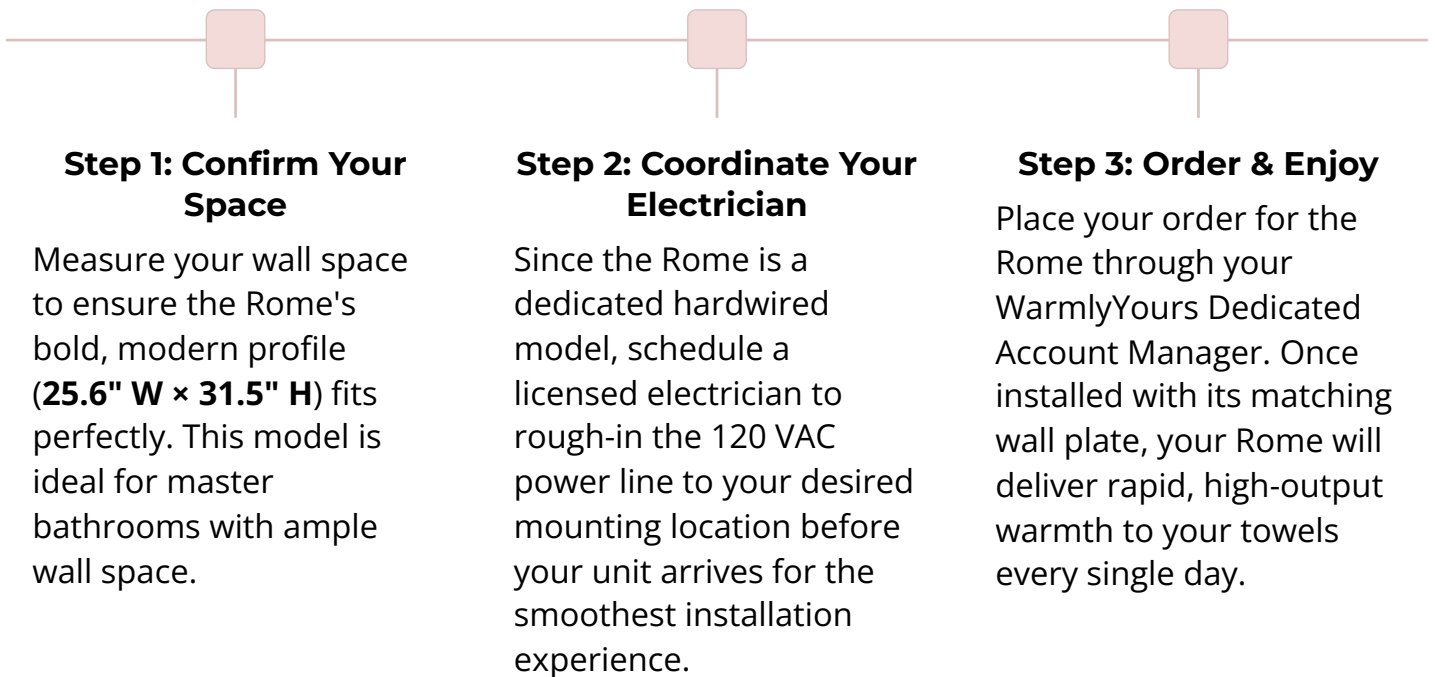

Slide the towel warmer onto the brackets, secure it to the wall plate, and tighten the hidden set screws to lock it in place. Turn on the power at the breaker and enjoy the bold warmth of your Rome.
