

Tahoe 7 Towel Warmer

Hardwired 120 V

The Tahoe 7 Towel Warmer pairs clean, linear square-bar styling with generous, full-size warmth. Seven evenly spaced square bars rise across a tall, elegant frame, delivering even radiant heat from top to bottom. Available in three stunning finishes — luminous Polished Stainless Steel, bold Matte Black, and luxurious Brushed Gold — the Tahoe 7 adapts effortlessly to any design vision.

THREE FINISHES

Polished Stainless Steel

Matte Black

Brushed Gold

Crafted from premium stainless steel with advanced TempSmart™ safety technology, the Tahoe 7 combines high-performance heating with timeless, architectural design — proof that comfort and style belong together.

PRODUCT FEATURES

Features

The Tahoe 7 Towel Warmer combines versatile three-finish design with clean square-bar styling to elevate the luxury bath experience. Every detail — from its choice of three designer finishes to its secure, hardwired wall integration — is designed to deliver dependable performance, safety, and timeless style to your home.

Generous 7-Bar Design

Full-size warmth. Seven evenly spaced square bars distribute heat across a tall frame, comfortably warming up to two large towels or a plush bathrobe at once.

Premium Stainless Steel Construction

Built to last a lifetime. Crafted from premium stainless steel and independently IP55-rated against dust and water, the Tahoe 7 resists rust, corrosion, and moisture — ideal for the steamy reality of a high-humidity bathroom.

TempSmart Safe-Touch Heating

Engineered for family-friendly safety. Built-in TempSmart™ technology automatically regulates the surface temperature, preventing the unit from exceeding 149°F (65°C) while maintaining safe, consistent warmth.

Secure Hardwire Connection

Designed for a safe, permanent installation. The Tahoe 7's hardwired connection terminates cleanly into a standard electrical junction box, eliminating cords and clutter for a beautifully integrated, built-in look.

Integrated LED Power Switch

Sleek and convenient control. The Tahoe 7 features a discreet, flush-mounted LED on/off power switch built directly into the base of the frame, providing convenient, independent control at the unit while maintaining a clean, uninterrupted aesthetic.

Modern Square-Bar Styling

Clean, architectural lines. The Tahoe 7's crisp square-bar profile delivers a contemporary, linear aesthetic that complements modern and transitional bathroom designs.

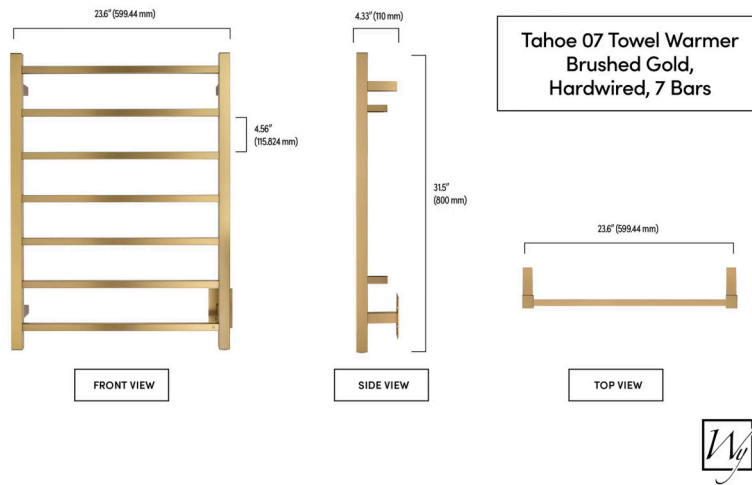

Luxurious Brushed Gold Finish via PVD

Elevate your space with our ultra-premium Brushed Gold model. Utilizing advanced Physical Vapor Deposition (PVD) technology, the gold finish is bonded to the stainless steel at a molecular level. This state-of-the-art process delivers a rich, warm luster with exceptional resistance to scratches, tarnishing, and corrosion — ensuring your towel warmer remains a stunning bathroom centerpiece for years to come.

PRODUCT SPECIFICATIONS

Product Specifications

Explore the engineering behind the Tahoe 7's clean square-bar design. The following specifications are shared across all three finishes — for the performance figures unique to each finish, see the finish comparison on the following page.

Connection	Hardwired
Voltage	120 V
Bar Shape / Count	Square / 7 Bars (Evenly Spaced)
Cord Color	White
Dimensions (W × H × D)	23.6" × 31.5" × 4.3" (60.0 cm × 80.0 cm × 10.9 cm)
Mounting Footprint	22 ³ / ₈ " (568 mm) W × 24 ³ / ₈ " (619 mm) H
On/Off Switch	Integrated LED On/Off Switch
TempSmart Safety Limit	149°F – 167°F / 65°C – 75°C
Ingress Protection	IP55
Listing	cULus Listed
Warranty	5-Year Limited Warranty

THREE FINISHES

Polished, Matte Black, or Brushed Gold — Which Finish Is Right for You?

Specification	Polished Stainless Steel	Matte Black	Brushed Gold
SKU	<u>TWS2-TAH07PH</u>	<u>TWS2-TAH07KH</u>	<u>TWS2-TAH07GH</u>
MSRP	\$555	\$635	\$875
Material	304-Grade Stainless	201-Grade Stainless	201-Grade Stainless
Finish Process	Bare Polished Steel	Powder Coated	PVD (Physical Vapor Deposition)
Watts	125 W	150 W	125 W
Amps	1.04 A	1.25 A	1.04 A
Resistance	115 Ω	96 Ω	115 Ω
Heat Output	427 BTU/hr	512 BTU/hr	427 BTU/hr
Weight	10.6 lbs / 4,808 g	10.4 lbs / 4,717 g	10.0 lbs / 4,536 g

Polished Stainless Steel

The Polished finish delivers a bright, reflective shine and timeless, classic elegance. Crafted from premium 304-grade stainless steel, it pairs beautifully with both traditional and transitional bathroom designs.

Matte Black

The Matte Black finish makes a striking, contemporary statement. Its deep, non-reflective powder-coated surface hides fingerprints and water spots beautifully — and it runs warmest of the three at 150 watts.

Brushed Gold

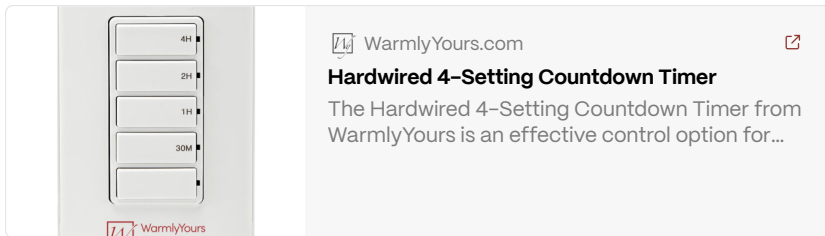

The Brushed Gold finish brings warm, refined sophistication to the space. Its PVD-applied surface delivers a rich, durable luster that elevates spa-inspired and upscale bathroom designs.

CONTROL OPTIONS

SMART HEATING

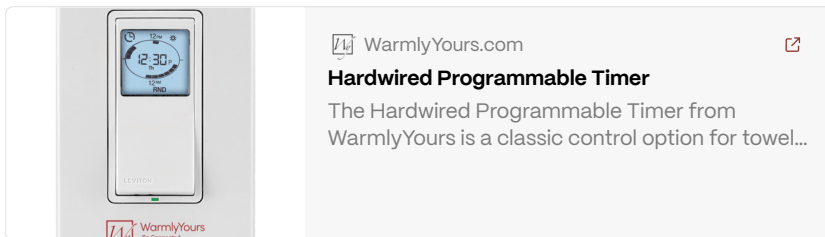

Towel Warmer Control Options

Enhance your daily ritual with effortless control over your towel warmer. Whether you prefer the simplicity of a manual switch or the sophistication of smart home integration, our range of control options ensures your towels are perfectly warm, exactly when you need them.

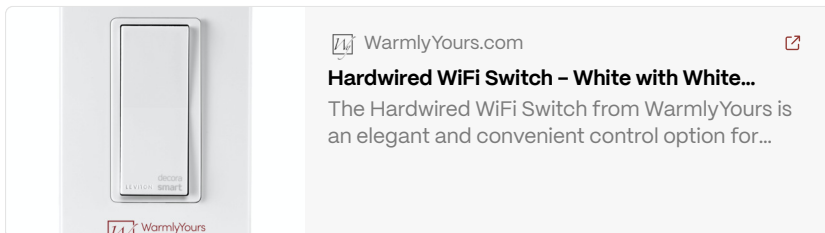

Simple timer, no programming. Select one of four preset countdown durations (30 min, 1 hr, 2 hr, 4 hr) — the warmer shuts off automatically.

GK16-30090-0006 | \$89

Scheduled daily heating. Program up to 50 on/off events on a 7-day schedule with a backlit LCD display.

GK16-30090-0002 | \$119

Smart home & voice control. Control remotely via the My Leviton app. Compatible with Amazon Alexa and Google Assistant — no hub required.

GK16-30090-0003 | \$139

 Hardwired controls are compatible with hardwired installations only. For plug-in installations, contact us for plug-in timer options.

4 Simple Steps to Install

Installing the Tahoe 7 is a clean, straightforward process designed for professional integration. Because it is a dedicated hardwired model, these four simple steps will guide your licensed electrician to complete a flawless, cord-free installation.

Plan Your Location

Determine the ideal wall location for your Tahoe 7. Ensure there is a 120 V power source nearby. Your electrician will rough-in the electrical wiring to the exact mounting leg location.

Complete the Electrical Connection

Have a licensed electrician route the power cable to a standard single-gang junction box at the mounting leg location. Complete the wiring connections and secure the matching wall cover plate.

Install the Mounting Brackets

Using the included template, mark and drill the mounting points. Secure the heavy-duty wall brackets to the wall studs or use appropriate high-strength anchors.

Secure & Power On

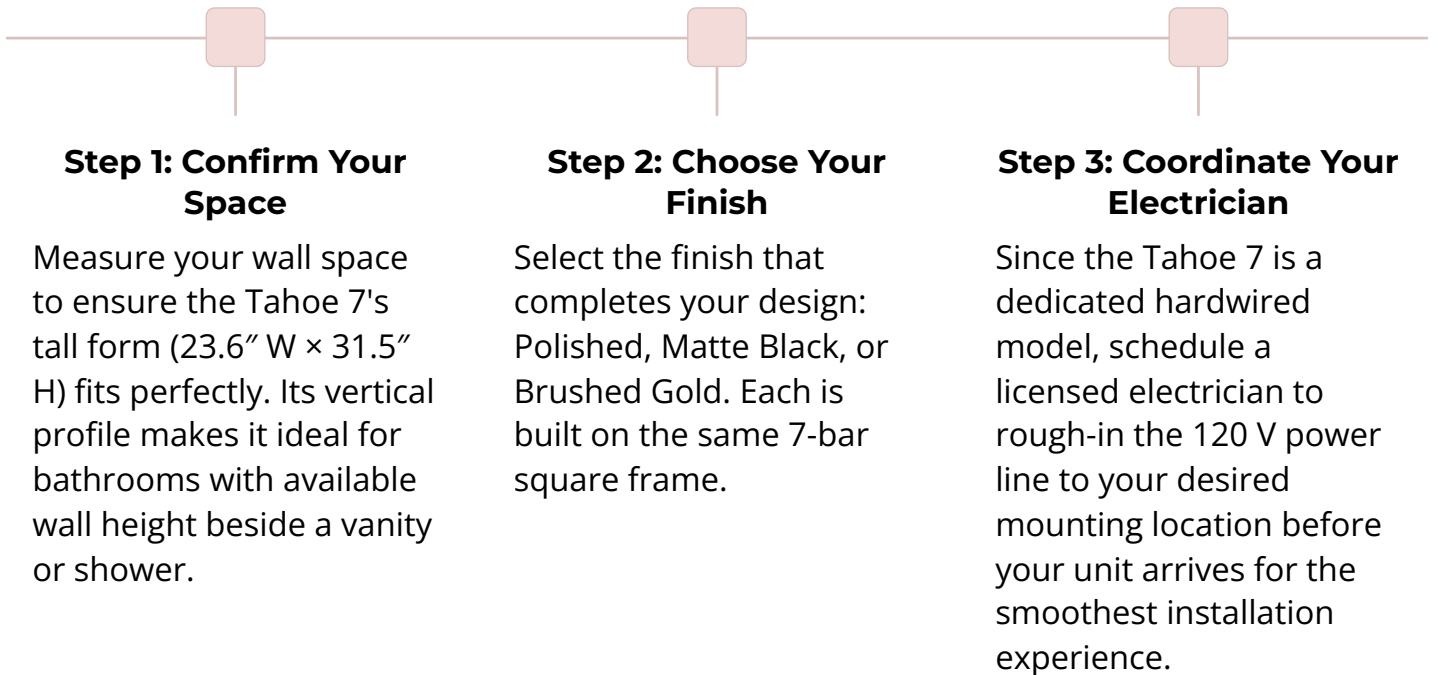

Slide the towel warmer onto the brackets, secure it to the wall plate, and tighten the hidden set screws to lock it in place. Turn on the power at the breaker and enjoy the modern warmth of your Tahoe 7.

ORDER INFORMATION

How to Order — It's Easy!

Confirm your wall space, choose your finish, and prepare your electrical layout — we'll help you bring the Tahoe 7 into your home! The Tahoe 7 is available in three designer finishes with a dedicated hardwired connection for a flawless, built-in look.

 **INSTALLER NOTE:** This unit requires a standard single-gang electrical junction box at the mounting leg location. Please refer to the installation manual for exact rough-in dimensions before closing the drywall.

 Questions about whether the Tahoe 7 is the right fit for your project? Contact us — we're happy to help you choose the perfect towel warmer and finish for your bathroom.
