

## **WarmlyYours wins Best Of Houzz 2015 Award for Customer Service**

*Radiant heating company selected by more than 25M monthly Houzz users*

LAKE ZURICH, Ill., Jan. 20, 2015 — For the second consecutive year, WarmlyYours Radiant Heating has earned the Best of Houzz Award for Customer Service by Houzz, the leading platform for home remodeling and design. The radiant heating company was selected by a community of more than 25 million monthly Houzz users.

The Best of Houzz 2015 award was awarded in two categories: Customer Service and Design. Customer Service honors were determined by a variety of factors, including the number and quality of client reviews that a professional received in 2014.

"The teamwork I experience on Houzz is incredible," said Linnay Grosche, Social Media Communication for WarmlyYours. "Everyone is willing to help each other out, whether it is to solve a design dilemma or answer a question about a product. Being a professional user on Houzz, we have found that the interaction with other professionals and homeowners is genuine and inspiring. We love the opportunity to share images, dreams and ideas with an audience that will give you honest input."

Winners receive a "Best Of Houzz 2015" badge on their Houzz profile pages. These badges help homeowners identify popular and top-rated home professionals in every metro area on Houzz. Homeowners can also evaluate professionals by contacting them directly on the Houzz platform, asking questions about their work, and reviewing their responses to questions from others in the Houzz community.

"Houzz connects people with the best home professional for their project by providing the only 360-degree view of a professional, from their portfolio, client reviews, awards and accreditations to their work style and expertise based on their participation in the Houzz community," said Liza Hausman, vice president of industry marketing for Houzz, in a statement. "We're delighted to join our community in recognizing the talented professionals on Houzz who are delivering incredible designs and delightful customer experiences."
