

# Barcelona

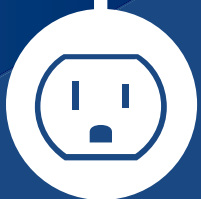

WarmlyYours has designed a freestanding towel warmer that offers the same elegance, luxury and convenience as its wall-mounted models.

It features a high-quality brushed stainless-steel finish, modern curved base, and quick heat-up time. However, absolutely no installation is required, making the portability of this model simpler than ever.

Because the Barcelona Towel Warmer is freestanding, it is versatile enough to move with you through the years.

## Specifications

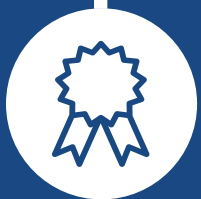

Dimensions	24"W x 36"H
Weight	10.0 lbs
