RADIANT HEATING

RADIANT SHOWCASE:

TempZone™ Electric Radiant Floor Heating Installed at the Mandarin Oriental Hotel - Las Vegas, NV

It started with two companies, The Group and The Oriental.

The company, The Oriental had already established a legendary property called The Oriental in 1876 and was acknowledged as one of the world's great hotels.

Meanwhile, another company, The Group began with the opening of its flagship property, The Mandarin, in Hong Kong, which soon built up a reputation for luxurious service.

Both hotels, whose names were among the best in hospitality, rationalized its corporate structure by

combining these two properties under a common name, Mandarin Oriental Hotel Group. Today, Mandarin Oriental Hotel Group operates 41 hotels representing over 10,000 rooms in 27 countries, with 18 hotels in Asia, 12 in The Americas and 12 in Europe and North Africa.

In December of 2009, Mandarin Oriental Hotel Group established their luxury

hotel, Mandarin Oriental, in the heart of Las Vegas, at the entrance of City Center.

The 47-story, non-gaming hotel features 392 guestrooms and suites, as well as a 27,000 sq. ft. spa

ART: Adaptive Radiant Technology

Based on the principle of the warm heat from the sun, radiant heat is a sustainable, adaptive, and healthy heat that is absorbed and is not prone to heat loss or overheating. A Harvard University Study confirmed that physical warmth, caused by radiant heating, directly affects and improves emotional well being, while influencing positive behavior.

Not only does radiant heating improve emotional health, but it also increases energy efficiency. With the use of radiant heat as a primary heating source, temperature levels can be maintained, on an average of 5.6% lower than any other form of heating. That means, for every degree you lower your thermostat, you can save 5% off your current heating bill. That's 25-30% in annual savings.

and fitness center. The Mandarin Oriental has been awarded the esteemed AAA Five Diamond Award rating as well as the Forbes Five-Star award for their Spa.

WarmlyYours has had the honor to contribute to the Spa at Mandarin Oriental, Las Vegas, to help deliver a deeply therapeutic experience as well as aspects of physical and emotional wellness while in surroundings that reflect the exotic luxury of 1930s Shanghai.

The steam rooms, showers, and bathrooms in the Spa not only offer luxury but also the tranquil and comforting warmth of our TempZone™ radiant floor heating system. We worked with Bradford Products to help create the perfect atmosphere of the Spa at Mandarin Oriental.

Warmth is a natural element that creates the sensation of comfort and well-being. Without warmth, there is discomfort and a void. With the assistance of WarmlyYours, Mandarin Oriental ensures that the guests' experiences are memorable and sufficient.
