

Infinity Towel Warmer

Dual Connection • 120 V

The Infinity is our most popular towel warmer — and for good reason. Its clean, classic ladder of ten straight stainless steel bars instantly elevates any bathroom, warming up to two large towels in even, everyday comfort. What truly sets the Infinity apart is its Dual Connection design: use it as-is in any standard outlet, or have a licensed electrician hardwire it — with power running through the mounting leg, there's no cover plate and no gang box, just a clean, streamlined silhouette. And when you're ready to make it your own, the Infinity welcomes genuine Austrian crystal collars in four designer patterns.

DUAL CONNECTION

CLASSIC 10-BAR DESIGN

AUSTRIAN CRYSTAL COLLARS

Crafted from premium 304-grade stainless steel with built-in TempSmart™ protection, the Infinity pairs unmatched installation flexibility with timeless, elegant design.

EVERYDAY LUXURY, YOUR WAY

PRODUCT FEATURES

Features

The Infinity Towel Warmer combines a timeless ladder design with unmatched connection flexibility — and the option to make it uniquely yours with Austrian crystal collars. Every detail is designed for everyday luxury, effortless installation, and lasting style.

Dual Connection — Incredible Flexibility

The Infinity's standout feature. Use it as-is, plugged into any standard 120 V outlet — or have a licensed electrician hardwire it. One product, two installation paths, total flexibility for any project.

Classic 10-Bar Design

Ten straight stainless steel bars distribute heat evenly across a timeless ladder frame, warming up to two large towels or bathrobes at once — the look that made the Infinity our best-seller.

Premium Stainless Steel Construction

Crafted from durable 304-grade stainless steel with easy-to-clean straight bars — built to resist the everyday realities of a high-humidity bathroom.

No Cover Plate Required

Power connects inside the mounting leg — so there's no gang box and no cover plate to interrupt the design. The result is a remarkably clean, streamlined, balanced appearance on the wall.

Make It Yours — Optional Crystal Collars

Add your personality. The Infinity accepts genuine Austrian crystal collars in four designer patterns — an optional upgrade that turns a beautiful towel warmer into your own signature statement piece.

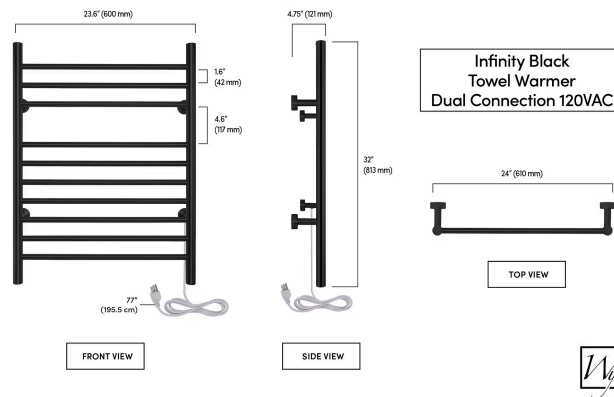

TempSmart Safe-Touch Heating

Built-in TempSmart™ technology automatically regulates the surface temperature, preventing the unit from exceeding 167°F (75°C) for safe, consistent warmth.

FOUR FINISHES

Start With the Finish That's Right for You

Every Infinity shares the same 10-bar ladder frame, premium 304-grade stainless construction, and Dual Connection engineering — choose the base finish that sets the tone for your space.

Specification	Brushed	Polished	Matte Black	Polished Gold
SKU	<u>TW-F10BS-HP</u>	<u>TW-F10PS-HP</u>	<u>TW-F10KS-HP</u>	<u>TW-F10GS-HP</u>

Soft Brushed Stainless

Our best-seller. A refined, satin-brushed surface that hides fingerprints and complements contemporary, understated palettes.

Luminous Polished Stainless

A bright, reflective shine and timeless, classic elegance — pairs beautifully with both traditional and transitional bathrooms.

Bold Matte Black

A striking, contemporary statement. The deep, powder-coated finish hides water spots and anchors modern, dramatic palettes.

Rich Polished Gold PVD

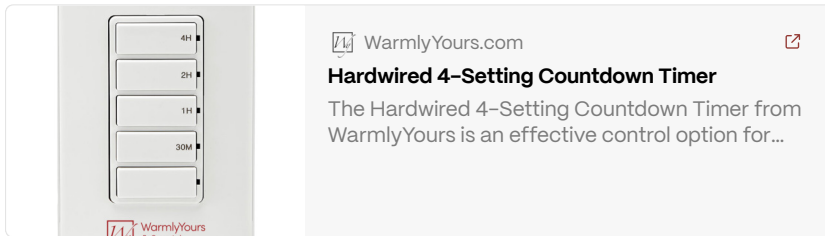

A warm, luxurious gold applied by durable Physical Vapor Deposition (PVD) — a high-end statement finish.

CONTROL OPTIONS

SMART HEATING

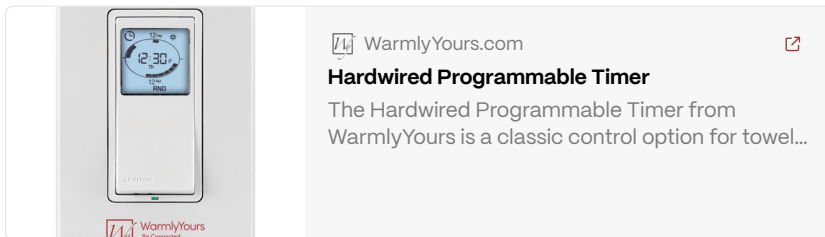

Towel Warmer Control Options

Enhance your daily ritual with effortless control over your towel warmer. Whether you prefer the simplicity of a manual switch or the sophistication of smart home integration, our range of control options ensures your towels are perfectly warm, exactly when you need them.

Simple timer, no programming. Select one of four preset countdown durations (30 min, 1 hr, 2 hr, 4 hr) — the warmer shuts off automatically.

PERSONALIZATION

CRYSTAL COLLARS

Make the Infinity Uniquely Yours

Every Infinity Towel Warmer includes standard stainless steel collars — the decorative caps where each heated bar meets the wall. To infuse your personal style, you can replace these with an optional set of genuine Austrian crystal collars. Each four-piece kit fully replaces the standard collars and installs in minutes — no special tools or electrician required — so you can add a touch of sparkle immediately or refresh your warmer's look anytime.

Explore our four designer patterns below:

Crystal Pattern	Image	Color Story	Upgrade Kit Price
Platinum		Dove gray to pearl and royal silver, offering a cool, sophisticated shimmer.	\$110
Slate		Pewter to sharkskin gray and silver, perfect for modern, understated elegance.	\$110
Midnight		Volcanic glass to inky night and onyx, providing a dramatic and luxurious depth.	\$115
Spice		Champagne to amber and antique gold, radiating a warm, opulent glow.	\$120

Each Crystal Collar kit is sold separately as a 4-piece set and is compatible with any Infinity towel warmer finish. The crystal accents carry a 2-year warranty.

Prefer a curved profile? The [Riviera](#) offers the same Dual Connection flexibility and crystal collar options in a sculptural 9-bar curved design — or browse our full [Towel Warmer collection](#).

Two Ways to Connect — Your Choice

*The Infinity's Dual Connection design gives you complete flexibility. Use it as a simple plug-in, or have it hardwired — either way, **no gang box or cover plate is required**, because power connects inside the mounting leg.*

Option A — Plug-In (No Electrician)

Mount the Brackets

Using the included template and hardware kit, secure the wall brackets near a standard 120 V outlet. Do **not** rough in a junction box.

Hang & Plug In

Mount the Infinity onto the brackets and plug the 77" cord into the outlet.

Switch On

Flip the integrated LED on/off switch and enjoy.

Option B — Hardwired (Licensed Electrician)

Mount the Brackets

Secure the brackets at your chosen location. No gang box required.

Modify the Connection

A licensed electrician modifies the cord for a hardwired connection — power runs through the leg, so no cover plate is needed.

Power On

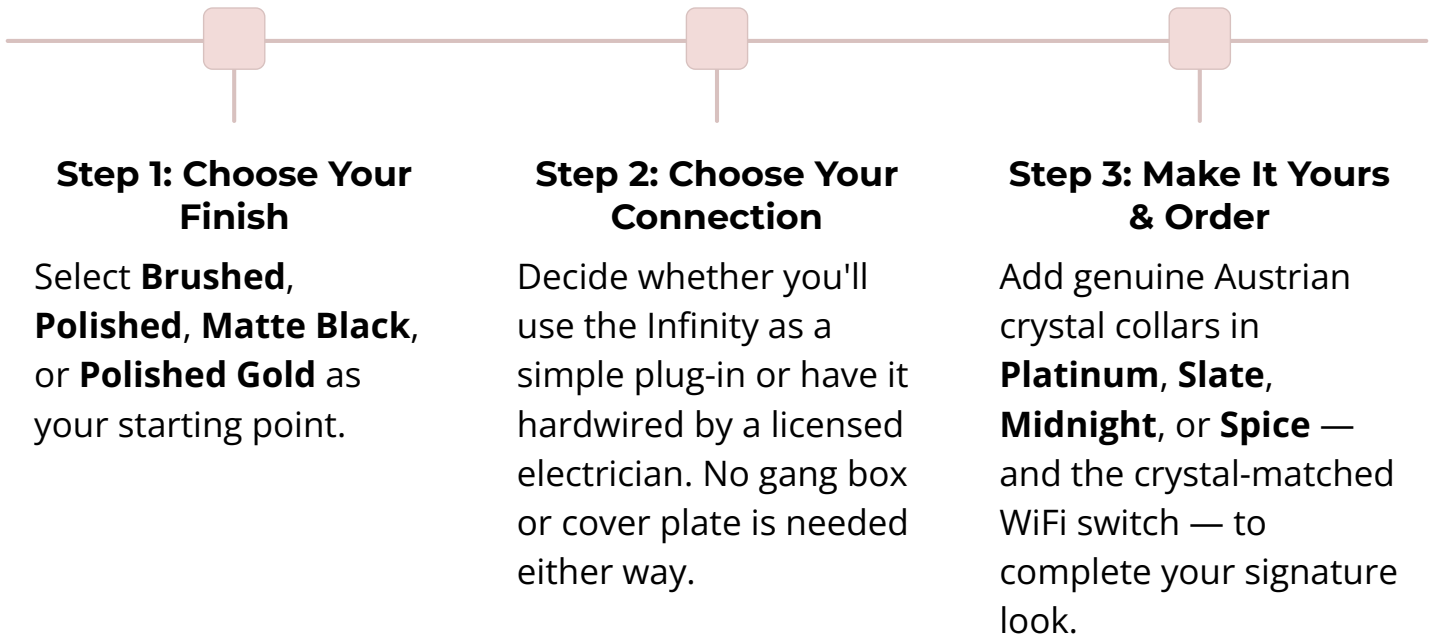

Restore power at the breaker and enjoy a clean, cord-free, streamlined look.
