

# Palma Towel Warmer

## Plug-In 120 V

*The Palma Towel Warmer is the easiest way to add everyday luxury to any bathroom. This compact, wall-mounted plug-in model uses four polished stainless steel bars to deliver gentle, even warmth — no hardwiring or electrician required. Just mount it, plug it into any standard outlet, and enjoy a warm, dry towel whenever you need one. With its slim footprint and timeless polished finish, the Palma brings spa-quality comfort to powder rooms, guest baths, and compact spaces.*

COMPACT 4-BAR DESIGN

  
**Polished  
Stainless Steel**

*Crafted from premium 304-grade stainless steel with built-in TempSmart™ overheating protection, the Palma pairs simple plug-in convenience with timeless modern design.*

PRODUCT FEATURES

# Features

*The Palma Towel Warmer combines a compact, space-smart footprint with simple plug-in convenience to bring everyday luxury to any bathroom. Every detail — from its easy installation to its durable stainless construction — is designed for effortless comfort, safety, and timeless style.*

## Compact 4-Bar Design

Space-smart warmth. Four polished stainless steel bars distribute heat evenly across a slim frame — ideal for warming a towel in powder rooms, guest baths, and compact spaces.

## Simple Plug-In Connection

No electrician required. The Palma mounts to the wall and plugs into any standard 120 V outlet with its 71" cord — add a towel warmer to virtually any bathroom in minutes.

## Premium Stainless Steel Construction

Built to last. Crafted from premium 304-grade stainless steel and IP55-rated against dust and water — built to resist rust, corrosion, and the steamy reality of a high-humidity bathroom.

## Built-In On/Off Switch

Effortless control. A discreet integrated on/off switch makes warming your towels as easy as flipping a switch — no separate control, timer, or accessory to purchase.

## TempSmart Overheat Protection

Built-in TempSmart™ technology automatically regulates the surface temperature, preventing the unit from exceeding 149°F (65°C) for safe, consistent warmth.

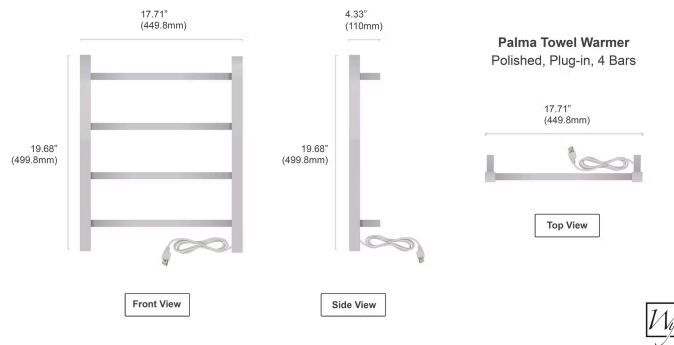

## Easy-to-Clean Modern Styling

A durable, low-maintenance polished stainless surface and clean, compact profile complement modern and transitional bathroom designs.

PRODUCT SPECIFICATIONS

## Product Specifications

Explore the engineering behind the Palma's compact, plug-in design. From its premium 304-grade stainless steel construction to its IP55 moisture rating and TempSmart™ safe-touch heating, every specification below reflects our commitment to durable, safe, and convenient radiant warmth.

COMPACT LUXURY

PLUG-IN CONVENIENCE

# Big Comfort, Small Footprint

## The Easiest Way to Add Everyday Luxury to Any Bathroom

*Not every bathroom has room for a full-size warmer — and not every project has the budget for hardwiring. The Palma solves both.*

### Space-Smart 4-Bar Frame

At just 17.71" wide and 19.68" tall, the Palma's compact footprint fits where larger units can't — tucking neatly into powder rooms, guest baths, and rental spaces without demanding significant wall real estate.

### No Hardwiring Needed

Its simple plug-in design means you can add it to virtually any bathroom in minutes, with no electrician and no permanent installation — the most affordable, flexible way to bring warm-towel luxury to any space.

### Timeless Polished Finish

The clean, polished stainless surface and slim square-bar profile bring a spa-quality aesthetic to any bathroom — a refined, modern look that works across contemporary and transitional design palettes.

Looking for a freestanding option? For a portable, no-mounting design, explore the [Ibiza and Barcelona](#) freestanding warmers — or browse our full [Towel Warmer collection](#).

CONTROL OPTIONS

SIMPLE HEATING

## One-Touch Warmth

*The Palma keeps control refreshingly simple. A built-in on/off switch gives you instant warmth with no separate timer or accessory to buy. Turn it on when you want comfort, off when you don't.*

### Built-In On/Off Switch

Instant control, right on the unit. The Palma's integrated switch is built in — no extra purchase needed.

#### Included with Unit

### Optional Outlet Timer

Want scheduled warmth? Add a standard plug-in outlet timer for automatic on/off control — no hardwired system required.

Outlet timers are available separately at most hardware stores — no special accessories required from us.

- The Palma's built-in on/off switch makes manual control effortless. For scheduled operation, simply add a standard plug-in outlet timer — no electrician or hardwired timer required.

INSTALLATION STEPS

GUIDELINES

# 3 Simple Steps to Get Started

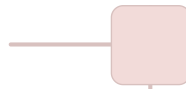

*There's no hardwiring and no electrician required. The Palma mounts and plugs in — ready to warm towels in minutes.*

## Mount the Brackets

Using the included template and hardware kit, mark, drill, and secure the wall brackets at your chosen location near a standard outlet.

## Switch On

Flip the integrated on/off switch and enjoy spa-quality warmth — in minutes, in any bathroom.

## Hang & Plug In

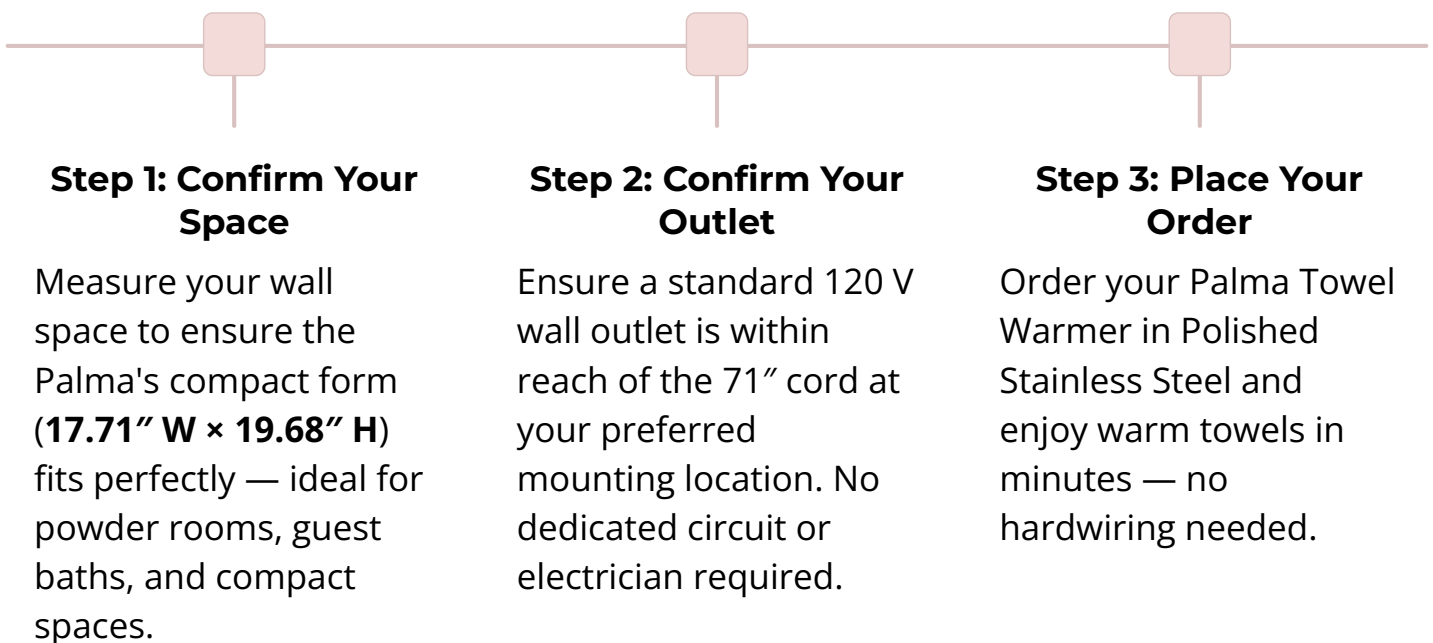

Mount the Palma onto the brackets, then plug the 71" cord into any standard 120 V outlet.

ORDER INFORMATION

## How to Order — It's Easy!

**Confirm your wall space and outlet, then place your order — because the Palma is plug-in, there's no electrician to schedule or hardwiring to plan.** The Palma is available in Polished Stainless Steel with a simple plug-in connection for instant, effortless installation.

**GOOD TO KNOW:** The Palma plugs into a standard outlet — no dedicated circuit or electrician required. For a clean look, mount it near an existing outlet or one concealed behind a vanity.

**Questions about whether the Palma is the right fit for your space?** Contact us — we're happy to help you choose the perfect towel warmer for your bathroom.
