Radiant Heating Collection

## The Radiant Heat Collection

from

WarmlyYours

## TempZone™

- Installation under tile, stone, hardwood, and marble flooring
- Available in Flex Rolls, Custom Mats, Easy Mats, Shower Mats, and Cable
- Twin conductor
- Energy efficient
- 10 –15 watts per sq. ft. for rapid warm-up time

## Towel Warmers

- Offered with hardwired, plug-in, and dual connection variants to ensure the perfect fit for your home
- Made with superior quality, hand-finished metals
- Hidden wiring mounts for single stud installation

## Snow Melting

- Available in cable (12 watts per linear ft.) or mat (50 watts per sq. ft.)
- Snow melting systems install directly in concrete, asphalt, or in mortar beneath pavers
- Snow melting cable designed with 1/4" (6mm) twin conductor
- Power Modulator control for multi-zone commercial applications

## Environ™

- Installation under carpet\*, laminate, and floating wood flooring
- Available in Flex Rolls and Easy Mats
- Ultra-thin foil technology
- Energy efficient
- 12 watts per sq. ft. for gradual, even floor warming

\*In the U.S only

## Hardwired LED Mirrors

- Hardwired installation (120 VAC) ensures no visible cords or plugs
- Warranty: 2 years for Marquee Series

## Pipe Freeze Protection

- Protects vulnerable pipes from freezing
- We offer both constant wattage and self-regulating cables
- Constant wattage cables are 120 VAC, are available in 3 lengths (3', 12', and 30'), and have a DIY-friendly plug-in connection
- Self-regulating cables come in a range of voltages (120, 208, 240, and 277), come in spools (50', 100', 250', 500', and 1,000'), and are more energy efficient

## Slab Heating

- Systems available in cable or mat
- Installs in concrete
- Offered in 120 VAC or 240 VAC configurations
- Slab heating cable designed with twin conductor

## ClearlyYou™ Mirror Defoggers

- Provides the luxury of a fog-free mirror
- Self-adhesive backing allows easy application to any wall-hung mirror
- Pre-attached power leads conveniently connect to 120 VAC lighting fixture
- Plugs into standard 120 VAC household outlet

## Ice Shield Roof & Gutter Deicing

- Deicing cable for residential and commercial applications
- Available in lengths of 50', 100', 250', 500', and 1,000'
- Choice of voltage options specifically calibrated for different applications
- Prevents ice accumulation

## Radiant Heating Panels

- While most are wall-mounted, we do offer some models that can be freestanding (with accessories) or even ceiling mounted
- Extremely energy efficient and doesn't circulate dust or allergens
- Dual connection: can be used as-is or modified for a hardwired electrical connection
- Models are available with black, white, or mirror finishes

## WarmlyYours FeelsWarm® Countertop Heaters

- Flexible, heat only the area you desire
- Low operating cost - 24/7 cycle for about 10 cents a day
- Plugs into standard 120 VAC household outlet
