TempZone™ Custom Mat

- Full coverage for any size space, such as bathrooms, kitchens, living rooms, or basements
- Easiest installation, no cut & turns required
- Customized, perfect fit for your specific room design
- 12-15 watts per sq. ft., 1/8" thick
- ETL listed, GFCI protected
- Backed by WarmlyYours No-Nonsense™ 25-Year Warranty

WarmlyYours TempZone™ Custom Mat was created for optimal fit underneath tile, stone, or hardwood floor coverings. Designed perfectly for any shaped room, our custom-fit mats are made to follow curves and angles with ease. Custom Mats allow for faster, simpler installations, and arrive in one custom-made mat so there's no need to cut or turn this mat, but simply unroll it and lay it onto the subfloor, ready for the thinset and tile, stone, or hardwood. The mats are 12-15 watts/sq. ft., depending on room size, and evenly distribute heat for full-room coverage. The mats feature a layered construction with the heating element sandwiched between two durable layers of fabric. We've made it even easier to add floor warming to any room in your home.
